

sinclair Corporation should not be allowed to force its stations (24% of the US total) to air the anti-Kerry hit piece "Stolen Honor". This type of abuse of the public airwave (free to them) is what happens when large corporations are allowed to buy up stations. No corporation should own more than ONE station. This is meant to be a democracy not a corporate oliarchy as it has now become. This hit piece should be produced and paid for by outside political group with the required balanced sir requirements of equal time for the other side. Media corporations should not be allowed to slant the "News". Sinclair is doing just that with this pseudo documentary that is full of baise. Order them to stop the airing.
